## SINGLE FEASIBLE SOURCE PURCHASE POSTING NOTICE

**The Missouri Department of Transportation has determined that only one source can provide the products or services described below**

**Title:** ProLine ™ Cold Asphalt Pot Hole Patch Material  
SFS 7 – 110419

**Description:** The Missouri Department of Transportation District 7 has determined that Don McBride of Logan County Asphalt Co. in Guthrie, Oklahoma, developed and owns exclusively the proprietary design of ProLine ™ cold asphalt pot hole patch material. ProLine ™ is a polymer modified high performance cold asphalt pot hole patching material. It can perform in virtually all weather conditions and was developed with the ability to be used as a permanent fix and not just a temporary solution. ProLine ™ carries a long shelf life, it remains in good working condition in extreme cold weather, it adheres to both concrete and asphaltic surfaces that are dry, damp or wet. ProLine ™ can be purchased in both bags or bulk. ProLine is very versatile and flexible in the ways it can be used which in turn cause it to be a very cost effective material.

**Contract Period:** Current date through December 31, 2012.
